TRADE PERIOD OPENS MONDAY

Alexandria Merchants Will Welcome Those Going There to Make Purchases.

REBATE RAILWAY FARES

High School Literary Society Holds Its Initial Public Meeting Before Large Gathering.

Alexandria, Va., Nov. 5.—A large gathering of out-of-town merchants from the surrounding counties are expected in this city on Monday, Tuesday and Wednesday to participate in the trade period of the chamber of commerce, these days be-ing designated for such by the chamber

T. Preston, secretary of the chamber, and William Jorg, local manager for the Corby Baking Company, have just returned from a visit to King George, Westmoreland and Northumberland coun ties, where they extended a personal in-vitation to merchants of these counties to come here. They are highly gratified with the result of their trip. The chamber of commerce has arranged to allow visiting merchants, during the period designated, rebates on their railroad fares, according to the amount of goods

purchased.

At noon on Monday luncheon will be served the visiting merchants in the rooms of the chamber of commerce, and at 1 o'clock the merchants will be taken to Mount Vernon.

On Tuesday a part of the program will be the luncheon and an automobile

on ruescay a part of the program will provide for luncheon and an automobile trip to Arlington, and on Wednesday, after luncheon, the visitors will be shown the manufacturing industries of the city and the various points of historic inter-

The following compose the reception committee: J. M. Duncan, J. M. Trimyer, Harry Kirk, A. D. Brockett, H. K. Field, Payne, Wallace Lindsey, R. M. Graham, C. C. Leadbeater, Charles King, George Burroughs, Carroll Pierce, Will-iam Jorg, W. A. Smoot, ir., George E. Warfield, George D. Hopkins, W. W. Ballenger, Worth Hulfish, Julian Y. Williams, F. L. Slaymaker, Windsor Demaine, Kenneth W. Ogden, Robert S. Jones, C. Lamond, Harry Hammond and Taylor

In the presence of a large number of parents of students of the Alexandria High School, teachers and others, the Alexandria High School Literary Society tonight held its first public meeting of the season in the Young People's Building. A musical and literary program was given.

The program follows: Opening speech In solo, Elmer Pavis; address, William H. Sweeney, superintendent of schools; vocal solo, Miss Anna Haslett; recitation, Miss Evelyn Howard; plane solo. Miss Ruth Le Hew; address, Conrad

Burke, treasurer,

Mrs. Emma Davis Spencer, daughter of Haywood Davis, or Fairfax County, Va., and Samuel Minor Byington, son of the late Dr. Frank Byington, of Charlestown, W. Va., were quietly married at 7:20 o'clock tenight at the home of Mrs. C. Randolph Davis, Prince street. The ceremony was performed by Rev. William J. Morton, rector of Christ P. E. Church. The bride was given in marriage by her rousin, Milton Stuart Fairfax. She wore a suit of midnight blue broadcloth with hat and gloves to match. After the wedding Mr. and Mrs. Byington motored to Washington, where they will reside.

With the installation of a new 1,250 the proposed in the throngs that crowd the

Clouder Nate.

That the inspection of scaffolding employed in building operations be a requirement of the District building inspector's office was a recommendation yesterday of a coroner's jury investigating the death Friday of John Silk and Harry Belt. The men were working on the Asbury A. M. E. Church, at Eleventh and K streets, when a scaffold broke and they fell to their death.

The jury returned a verdict of accidental death. Witnesses, composed of workmen on the building any officials of the building inspector's office, declared the scaffold was well constructed and had carried a heavier load than was on it when it collapsed.

The verdict said: "We recommend that some provision be made by the District of Columbia for the inspection of all scaffolding used in the future, so as to prevent a repetition of like accidents."

Senator Oscar Underwood, of Alabama, is in favor of a cloture rule for the Senate. He favors an early adjournment, in the spring if possible, and believes the country is on the eve of great prosperity. The new Senator is of the With House executive offices yesterday. He will confer with the President Wednesday on legislative and other matters to be taken up at the next session.

"We ought not to carry the session into the Presidential campaign," said Senator Underwood." I believe we can complete the necessary legislation and Senator Underwood." I believe we can complete the necessary legislation and Senator Underwood in the scaffold was well constructed and had carried a heavier load than was on it when it collapsed.

The verdict said: "We recommend that some provision be made by the District of Columbia for the inspection of all scaffolding used in the future, so as to prevent a repetition of like accidents."

"Saljent Facts About the Simple In-dian" might have been-but wasn't-the title of an address delivered by Dr. C. M. Buchanan, former member of the facul-ties of Central and Eastern High Schools, on Connecticut avenue northwest.

The perfection of the equipment for supplying every part of the city with mails and cream of superior quality is night by the Federal School Men's Club.

Dr. Buchanan exploded several theories regarding the Indian, among them: First—That the Indian race is dying out. Second—That it doesn't pay to be a "bad Indian." Third-That it pays to be a Carlisle.
"The idea that the Indian race is dis

4.000 gailons. From that little cellar the Chestnut Farms Dairy has come to ccupy buildings with a frontage of eighty-five feet on Connecticut avenue, and extending almost to Sixteenth street, giving a ground floor space of about 17,500 square feet, and a total on three floors of approximately 35, 1000 square feet.

The original part of the present stunds one attraction of the present stands one of the content area. appearing is erroneous," said Dr. Buch-anan, "While the full-blooded Indians tinue to increase. The addition of white blood increases the vitality of an Indian. It is not true that they are particularly sturdy; in fact, changed living conditions

were given lands then thought to be undesirable, lands that the white mend of the room. The temperature of this room runs from 60 to 75 degrees.

Four Pasteurizing Vats.

On the top terrace there are two receiving vats for the milk, and on the second terrace are four pasteurizing vats, with a capacity of 500 gallons each. From there the milk flows over a cooling device that reduces it from a temperature of 165 degrees to one of 25 degrees. On the main floor are three filling and cupping machines that put out from forty-five quarts to sixty half-pints each minute. As the bottles are filled the automatically cupped, they are transferred to cases and pass to the cooling rooms. They are delivered to the consumer at a temperature of 40-45 degrees.

The bottles that have been used are washed and sterilized under steam pressure. The storage room for these has a capacity of 12,000 bettles. The cold storage rooms are kept at 40 degrees, an ice factory turns out from ten to fifteen tons daily, while there is in the rear of the main plant a refrigerator compressor with a capacity of thirty tens daily, and a 150-horsepower boiler. Here, too, is a small garage and machine shop, lockers and shower baths for the men.

On the second floor there is a large bookkeeping force, taking care of the distribution through twelve automobiles

September Record of \$300,-000,000 Is Highest in History.

BIG BALANCE OUR WAY

Over Billion and a Quarter in America's Favor for the Nine Months in 1915.

The export movement of American mendous pace. September was the big-gest mouth in the history of the foreign trade of the United States. Exports in that month were valued at more than 1309,000,000 as compared with 1261,000,000 in August of this year, and 3155,000,000 in September, 1914. For the nine months ended with September last exports were valued at 22,532,485,167 as compared with \$1,467,691,589 in the corresponding period of

The balance of trade in favor of the United States for the nine months of 1914, was a little in excess of \$57,000,000, exports aggregating \$1.87.80,389 and imports \$1,410,071.874. The balance of trade in favor of this country for the nine months ended with September is away above the bil-Hon-dollar mark. To be exact the bal-ance is \$1,239,230,381. Exports were valued at \$2,322,485,167; imports, \$1,362,634,736.

All Commodities Increased.

Comparing the two nine-month periods, and September of this year with the cor-responding month of 1914 increases are shown in every important item in the export figures. Exports in foodstuffs have more than doubled, and the same is true of manufactures ready for consump-

Miscellaneous exports increased in value from \$5,500,000 to nearly \$97,000,000. Miscellaneous exports in September last were valued at more than \$10,200,294, as compared with a little more than \$5,000, 600 in the corresponding month of 1914.

Imports Increase Slightly.

Imports are showing a tendency to in crease, although not to an extent to give arsurance that there will be any substantial advance in the customs revenues of the government. Comparing the value of the imports in the nine months ended with September, 1914, with the corresponding period of this year, there was a decline of more than \$197,000,000. In the nine months of 1914 imports were valued at \$1,410,071,574; in the nine months of this year they represented a value of \$1.572,044,756. There were increases in some items of imports. rease, although not to an extent to give me items of imports.
